

# EcoCard Pro

“100% Recyclable” PVC CR80 Cards

## Innovative, More Sustainable Materials

Avon Security is your trusted partner for innovative solutions, helping you to continually stay ahead of the curve and on trend in the marketplace. As part of our eco-friendly line of products, we offer **100% recyclable** PVC products that are versatile and fully customizable.

Where sustainability meets durability, our **100% recyclable** PVC cards redefine eco-friendly solutions without sacrificing performance. Boasting a graphics-quality print surface that matches traditional PVC, these cards excel across various markets, from hospitality and event management to education and secure access. Their versatility makes them ideal for both multi-use and single-use applications, providing a premium, responsible choice for your needs.

## Minimizing Environmental Impact

Our **100% Recyclable** PVC material is engineered with an eco-friendly composition that includes a special additive that facilitates its decomposition process. When disposed of in organic compost or biologically active landfills, this additive attracts microbes, initiating a breakdown of the polymer chain.

# Key Features of EcoCard Pro PVC Cards

## Eco-Friendly and Durable

**Eco-Friendly:** Cards are designed to be earth-friendly, degrading faster than regular PVC, making them a more sustainable option for your card printing needs.

**Durable:** Despite being **recyclable**, our PVC cards maintain the same durability and reliability as standard PVC products.

## Customization and Versatility

**EcoCard Pro** PVC cards are available in standard format with a full array of customization options at your fingertips for inclusion of brand elements and card security features.

**Graphics-Grade Printable Surface:** Cards feature a high-quality printable surface, ensuring your graphics and branding look sharp and vibrant.

**Print Options:** Choose from blank/white, fully custom printed, or pre-printed and ready for post-print.

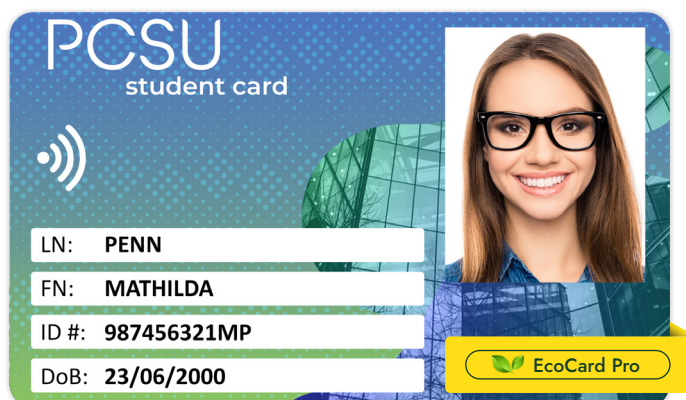

## Card Manufacturing and Uses

**Fast Turnaround Times:** We ensure quick production to meet your deadlines.

**Reliable On-Time Delivery:** Our commitment to delivering on time every time sets Avon Security apart in the plastic printing industry.

## Applications of Degradable PVC Products

- Event Credentials
- Education Badging
- Gift Cards
- Loyalty & Membership Cards
